Subject: Endorsement Letter for Ons Nagara for the IEEE IES SYP Congress 2026 Travel Grant Application

Dear IEEE IES SYP Congress Selection Committee,

As Chair of the IEEE IAS/IES/PES ESPRIT Student Branch Joint Chapter, I am pleased to endorse Ons Nagara for the IEEE IES SYP Congress 2026 Travel Grant Application.

Having worked closely with Ons as Secretary of the IEEE IAS/IES/PES ESPRIT Student Branch Joint Chapter during her term as Chairperson, I directly witnessed her leadership, dedication, and impact, which allowed me to closely observe her ability to lead teams, manage chapter operations, and drive both technical and non-technical initiatives with remarkable efficiency and vision.

Since joining IEEE ESPRIT SB in 2023, Ons has held key leadership roles including Secretary and Chairperson of the IEEE IAS/IES/PES SBJC, and is currently Chairperson of PESTGM 7.0. She played a major role in organizing flagship events, and helping the chapter achieve national and international recognition.

Her commitment is reflected in the many accomplishments achieved during her term as Chairperson, including 3rd place in the IEEE-IES Inter Student Branch Chapter Competition, 3rd place in the IES Technical Challenge TSYP 13, the 2025 IES Student Branch Chapter of the Year Award, and 1st place in IAS and PES TSYP13 Technical Challenges, among others. Her contributions also added significant value to last year's IES SYP Congress, where she helped secure the Best Poster Award.

Even after her term as Chairperson, Ons remains highly active and deeply involved, continuing to mentor and guide the Joint Chapter during the current term, while supporting its members and leadership team. I am confident that her participation in IES SYP 2026 will once again bring strong value to the event and further strengthen her impact within the IES community.

I strongly support Ons Nagara's application and believe she is a highly deserving candidate who will represent her Student Branch and Region with excellence.

Best regards,

Fatma Lajmi - Chair of the IEEE IAS/IES/PES Student Branch Joint Chapter
